Yesterday, when the Convention was trying to get several propositions in shape for action relative to admitting the seceders, appointing a Committee on Credentials and the like, Gen. Clark thought it was necessary to have his name figure in the proceedings, so he sent up a resolution to be read for information, hoping, he added, that the gentlemen who offered the last amendment would accept his resolution as a substitute. The reading was agreed to, and what was the subject? Why a long rigmarole about slavery in the territories, and the Dred Scott decision, having about as much to do with the subject before the Convention as one of the lost tribes of Israel has to do with the moon .-Yet the Hon. Mr. C., from Missouri, insisted that his proposition should come in as a substitute. It is unneccessary to say that the absurdity of the proposal was too manifest to permit its acceptance, but if it had been in the power of the Convention to have stuffed a copy of Helper's Impending Crisis down Gen. Clark's throat, it would have

anxiously we return to those sentinels who have kept watch in the past, for some lesson to teach us triumph in the trying hour. In their midst stands the immortal Clay, next to the "Father of this Country." The neblest feelings cluster around his still living spirit. In his wisdom and political foresight, he foretold ten years ago the present Union party; and at that time, so near the termination of his earlier career, gave to its principles and purposes his hearty approbation. Referring to the epposition them waging in the North under the leadership of Wm. H. THE GREAT SOUTHERN REMEDIES

DR. JOHN BULL'S Compound Pectoral of Wild Cherry, For the complete cure of

COUGHS, COLDS, ASTHMA, BRON-CHITIS, INFLUENZA, PAINS IN THE SIDE AND BREAST

Spitting of Blood and Consumption,

Is rapidly advancing in the estimation of the public. It is no empirical nostrum; its component principles are made known to the entire medical faculty. It is prepared accurately from the recipe of an experienced and talented physician, and has proved itself to be the greatest remedy for all diseases of the Lungs ever discovered; and wherever it has been introduced it has made cures which are perfetly astonishing. It is bound to supercede every other Cough Medicine before the public. Testimonials are daily being sent in to the proprietors, of cures effected even after physiciaus had abandoned every hope. A single trial will convince the most incredulous of its efficacy in curing that class of diseases for which it is designed. Why is it that so many die every year of Consumption, or some other disease of the Lungs? Because they neglect its sure forerunner—a "simple cold,"—which might be easily cured by the prompt use of a single bottle of Dr. John Bull's "Compound Pectoral of Wild Cherry." We say, therefore, Try it, by all means.—

If this does not cure you, nothing can. Spitting of Blood and Consumption,

### DR. JOHN BULL'S Vegetable Worm Destroyer

Is a remedy alike pleasant and effectual for the evil. There is not the least difficulty in getting children to take the medicine. It is prepared in the form of candy drops, and will be eaten with aviding by children of all ages. It destroys and expels worms more effectually than any remedy now in use, while at the same time it will in no way effect injuriously the health of the child.
